POT GROWN LINING OUT STOCK

All our lining out stock is POT GROWN, in 2 and 2½-inch pots.

GRADING. We do not grade our plants by the size of pot, but grade according to the quality of the plant. All plants in both the No. 1 and No. 2 grades are strong, sturdy and of high quality. In many instances we class 2-inch pot plants as No. 1 grade and oftentimes 2½-inch pot plants are put in the No. 2 grade. We sell you a plant that will hold a ball of earth, a strong, vigorous plant. We know you will like our plants and our way of grading. **SAMPLES** at 100 rate.

PACKING. Each plant is wrapped separately in paper before packing. Boxes are paper lined to keep in the moisture and we use plenty of excelsior in packing, so the plants reach you in excellent condition. **PACKING L. O. Stock FREE.**

SHIPPING. All orders received in the fall are set aside in cold frames, labeled and held for you till spring, until you notify us when to ship. Biotas are shipped in May.

EVERGREENS

All Evergreens are grown in 2 and 2½-inch pots.
